

SLIMLINE

Office 
Home 

The Slimline range is the most compact Power Logic product range with four sleek body types that reduces space and simplifies the working environment.

POWER OPTIONS

The unit has Hybrid Power capabilities (power & data) and can house one or more circuits in a single unit (clean and normal).

CABLE EXIT

This range features a swivelling cable exit with a 90° range. It extends the cable life by relieving stress where the cable exits the unit through the specially designed cable grip.

AESTHETICS

Wide variety of colours and finishes for both metal and plastic components complement any environment. Contact your distributor for more information.

SWITCHES

The unit is able to house a 15A Thermal Overload Switch as well as other standard red and green switches.

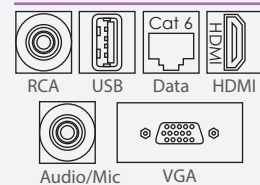

POWER OUTLETS

The Slimline range features the Australian, Brazilian, SA, Schuko, Swiss, US and UK power outlets with more international outlets available soon. Available in black, grey and white. Contact your distributor for more information or visit: www.powerlogic.net

CONFIGURATIONS

Units can be assembled in almost any configuration with a wide variety of combinations of power outlets, peripherals, colours and finishes.

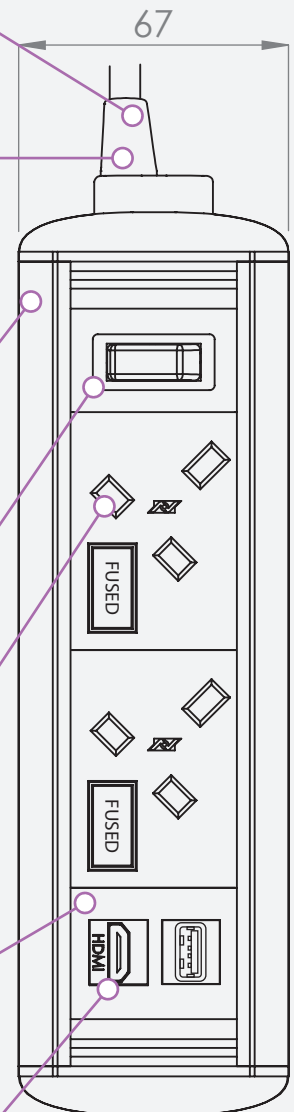

PERIPHERAL OPTIONS

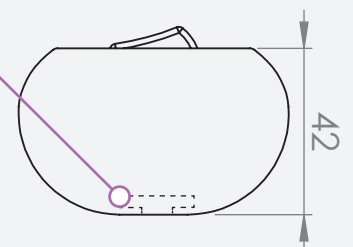

* USB Smart Charger available

MOUNTING OPTIONS

All Slimline units have a T-channel running along the bottom of the extrusion used for prefitting desk clamps if requested. Clamps angle the unit at 45° to ensure the most ergonomic position. For more information visit: www.powerlogic.net

* Length dependant on configuration.

All measurements are in millimeters unless otherwise indicated
